She enkindles souls to experience the light within them by empowering all to connect with, trust in, and follow their own souls guidance free from the illusions of limiting beliefs.

Lady Nenari's healing Love and Light seeks to remind us that when you live from your heart, it is your soul that guides you rather than the illusion of this earth that we call as fear and doubt. To be living from your heart, from your soul and your intuitive heart, free from limitation, is to bring bliss and AbSOULute love into your life experience and within the lives of all those whom you inspire which in turn illuminates the universe in an infinite circle.

By simultaneously experiencing our Oneness, as well as, our individuality, Lady Nenari's vision is that of seeing this earth as simply whole, perfect, complete, and beautiful simply as it IS (Infinitely Spiritual); where AbSOULute Love is seen as the natural vibrational frequency resonance that occurs when we let go of fear and the illusions of limiting beliefs and step into the OM, the One Moment of Love and Light.

We just organized the One Billion Rising ~Vernon with her doing most of the organizing. She is very talented in marketing, online marketing, organizing, managing, communicating, etc. All of the talents needed to collect a group of volunteers, including musicians, a sound technician and a place to hold the dance.
